

Do you agree or disagree with the following statement? Television has destroyed communication among friends and family. Use specific reasons and examples to support your opinion.

The invention of television is undoubtedly one of humankind's greatest inventions. It is a way of communication among people of one country and different countries and nations. People watch TV to find out about the latest news, weather, sports, etc. It is a great way to learn new and extend one's range of interests. Scientists say that children spend the same amount of hours in front of TV as they do in school. I think that this can be said about many grown people too. Also, television is a great means of eliminating stress and tension. One can relax and leave one's troubles behind lying on one's favorite sofa and watching a comedy. However, some people believe that television has destroyed communication among friends and family.

Personally, I do not agree with this statement. A couple centuries ago people spent their time gambling, reading, gossiping or playing chess. I do not think that television is a cause of destroyed communication among family members and friends. First of all, if members of a family have common interests and they want to make each other happy they will always find many ways to spend their time together and be close. Otherwise, if people avoid each other and they do not have anything to share with each other they will find television a great way to escape from this miserable existence. I believe that many people chose family and their friends over some soap operas or a movie.

Second of all, I think that television can be a great resource of subjects to discuss. Many people watch different educational programs to find out more about their environment, nature, wild life animals, economic situations, etc. So, when they gather with their friends they discuss important issues and argue with each other in looking for the truth.

My husband and I often watch the news channel to keep abreast of the latest news. After that we always discuss some issues we concerned about. Also, we like to watch a TV show "the funniest animals". We like this program because it makes us laugh. I can not imagine how these programs can prevent our communication and be harmful to our relations.

To summarize, I would like to add that if people want to communicate with each other they will find a way to do it. Otherwise, if television were not existent, people would find other escapes and reasons not to be with each other such as drugs, gambling, etc.
