

Some people like to do only what they already do well. Other people prefer to try new things and take risks. Which do you prefer? Use specific reasons and examples to support your choice.

From my everyday experience and observation I think that all people who succeeded in life had to work hard and gain more knowledge and experience in order to reach their goals. From the other hand, people who all their life do things they already do well and do not improve their knowledge do not move forward. I base my statement on the following points.

First of all, people who want to succeed must constantly improve their knowledge and gain more experience. Moreover, they must be the best at their profession. So, they need to try new things, take risks sometimes and work hard .

Second of all, it is impossible to live without trying new things. Imagine one wants to learn how to drive. He will never be able to do it without learning new things such as driving rules.

Personally, I think that it is very interesting to learn new, to gain more experience, to make new goals and reach them. Life is too short to stay on one place. People need changes because they make our lives more beautiful and exiting. We find out new things, learn new things and dream to know other things. People need challenges because while overcoming obstacles we make new discoveries, become stronger, perfect ourselves and move forward.

To sum up, I believe that people's aspiration for learning new things is the main reason the way we live now. People make many discoveries and inventions that make our lives easier, happier and longer.
